SODEN MINERAL PASTILLES are unequalled as a solvent in coughs and catarrhs, even in the most chronic cases. Their success is unsurpassed. SODEN MINERAL PASTILLES are a superior romedy in whooping cough and diphtheria; in the former they lessen the paroxysm of the attack while preventing the latter disease, which cannot take hold in a throat not affected by catarrh. SODEN MINERAL PASTILLES derive in-

reased value from the fact of having a very favorable influence upon the organs of digestion.
SODEN MINERAL PASTILLES ought to be kept in every home. All mothers are recommended to arge their children during the cold season to allow a pastille slowly to melt in their mouths while out on errands or going to school.
